Saginaw River, MI – Saginaw Bay Confined Disposal Facility (Saginaw Bay CDF)

Project Description

- Navigation Project Served: Saginaw River, Michigan
- The facility is owned by the Michigan Department of Natural Resources
- The facility is operated and maintained by the Detroit District, U.S. Army Corps of Engineers
- Saginaw Bay CDF is an in-lake island facility in Saginaw, MI located 1.5 miles northeast of the mouth of the Saginaw River.
- The Saginaw Bay CDF has an area of 283 acres. The facility's dikes have not been constructed to their full authorized dimensions. Dikes will be raised incrementally through fill management activities as conditions warrant.
- The CDF has more than 10 years of capacity remaining.
- Non-Federal interests may use this disposal facility if it is determined that the capacity to be used by the non-Federal interest will not reduce the availability of the disposal facility for Federal navigation project purposes, that the non-federal dredged material resulted from a project directly linked to Saginaw River navigation purposes, that the material is environmentally acceptable, and payment of a tipping fee.

Project Authority

- The facility was constructed in 1978 under the authority of Section 123 of the River and Harbor Act of 1970, Public Law 91-611, as amended and was expanded in 1999.

Beneficial Use Information

- Direct transportation access to the CDF is available via water only.
- For more information about beneficial use opportunities, please contact the Corps of Engineers using the contact information at the bottom of this fact sheet.

Congressional Interest

- Representative Daniel Kildee D-MI-8
- Senator Gary Peters D-MI
- Senator Debbie Stabenow D-MI
