## Toledo Harbor, OH – Toledo Harbor Site 3 – Cell 2 Confined Disposal Facility (Toledo Harbor Site 3 – Cell 2 CDF)

### Project Description

- Navigation Projects Served: Toledo Harbor.
- The facility is owned by the Toledo-Lucas County Port Authority
- The facility is operated and maintained by the Buffalo District, U.S. Army Corps of Engineers
- Toledo Harbor Site 3 – Cell 2 CDF is an in-lake facility attached to land in Lucas County, OH. The CDF is located in Lake Erie immediately east of the Toledo Edison power plant with an extension built along the northeast side of the power plant.
- Toledo Harbor Site 3 – Cell 2 CDF has an area of 155 acres, has a total capacity of 5,300,000 cubic yards. The CDF has approximately 5 to 20 years of capacity remaining.
- The State of Ohio's new law limiting the open water placement of dredged material in Lake Erie, effective July 1, 2020, has led to renewed interest in potentially restarting use of the CDF for placement of newly dredged material.
- Non-Federal interests may use this disposal facility if it is determined that the capacity to be used by the non-Federal interest will not reduce the availability of the disposal facility for Federal navigation project purposes, that the material is environmentally acceptable, and after payment of a tipping fee.

### Project Authority

- The Site 3 facility was constructed in 1976 and the Cell 2 expansion was completed in 1994; both under authority from project specific O&M.

### Beneficial Use Information

- Direct transportation access to the CDF is available via road and water.
- For more information about beneficial use opportunities, please contact the Corps of Engineers using the contact information at the bottom of this fact sheet.

### Congressional Interest

- Representative Marcy Kaptur D-OH-9
- Senator James Vance R-OH
- Senator Sherrod Brown D-OH
