

US Army Corps
of Engineers ®

Bay Port Harbor, MI

Harbor Features

- Located on Wild Fowl Bay on the east shore of Saginaw Bay, about 10 miles south of Caseville, MI
- Authorization: Rivers & Harbors Act of 20 May 1965
- Shallow draft recreational harbor
- Project depth is 6 feet
- Approximately 5,750 feet of maintained federal channel
- State of Michigan provides an upland placement site for dredged material on an as-needed basis
- Major stakeholder: U.S. Coast Guard and Native American fishing interests

Project Requirements

- Requires periodic maintenance dredging on an 8 to 12 year cycle
- Last dredged in 2011
- Maintenance dredging is not currently required.

Consequences of Not Maintaining the Project

- Loss of local jobs
- Loss of recreational and charter fishing in the area
- Loss of recreational boating access
- Loss of safe harbor during storm events
- Potential safety issues for recreational boating community

Transportation Importance

- This project serves as an important harbor of refuge and supports charter fishing and recreational navigation interests.
- The local community has established significant infrastructure around the harbor facilities that generates income from harbor users and visitors to the area.
