Big Suamico Harbor, WI

Harbor Features

- Located off the Big Suamico River, which flows east into Green Bay, an arm of Lake Michigan
- Authorized: Rivers & Harbors Act of 1937
- Shallow draft recreational harbor
- Project depth is 8 feet
- Approximately 3,700 feet of maintained federal channel
- Major stakeholders include the U.S. Coast Guard, Native American fishing interests, and various marina owners

Project Requirements

- Periodic maintenance dredging on a 5 to 7 year cycle of approximately 9,000 to 13,000 cubic yards.
- Last dredged in 2002.
- Maintenance dredging is currently required.

Consequences of Not Maintaining the Project

- Loss of local jobs
- Loss of recreational and charter fishing in the area

Transportation Importance

- This project serves as an important harbor of refuge and supports charter fishing and recreational navigation interests.
- The local community has established infrastructure around the harbor facilities that generates income from harbor users and visitors to the area.
