of Engineers ®

Eagle Harbor, MI

Harbor Features

- Located on the south shore of Lake Superior on the western shore of the Keweenaw Peninsula, about 35 miles northeast of the north entry to the Keweenaw Waterway
- Authorization: Rivers & Harbors Act of 2 Mar 1945
- Shallow draft recreational harbor
- Project depth of 12 feet
- Federal harbor basin is approximately 4.2 acres
- Structures include: a rubble mound breakwater near the old Coast Guard station and a steel revetment from the old Coast Guard ramp to the existing boat ramp
- Major stakeholders: U.S. Coast Guard, Eagle Harbor Township, and local recreational boating interests

Project Requirements

- Requires periodic maintenance dredging on an infrequent basis
- The harbor was last dredged in 1973; dredging is not currently required.
- Critical breakwater safety maintenance is required.

Consequences of Not Maintaining the Project

- Loss of local jobs
- Loss of recreational and charter fishing in the area
- Loss of recreational boating access
- Loss of safe harbor during storm events
- Potential safety issues for recreational boating community

Transportation Importance

- This project serves as an important harbor of refuge and supports charter fishing and recreational navigation interests.
- The local community has established significant infrastructure around the harbor facilities that generates income from harbor users and visitors to the area.
