### Project Requirements

- The harbor typically requires dredging every 5 to 10 years to maintain the navigation channel. The harbor was last dredged in 2018 when approximately 56,000 cubic yards of material was removed.

Damage was exacerbated by the Lake Ontario high water event in 2017. Engineering and design of breakwater repairs were completed in 2019. Construction is planned for 2020 to prevent further deterioration.
