of Engineers®

Muskegon Harbor, MI

Harbor Features

- Located on the east shore of Lake Michigan, 114 miles northeast of Chicago, IL
- Authorization: Rivers & Harbors Acts of 13 Jun 1902, 3 Mar 1935, 30 Aug 1935, 23 Oct 1962
- Deep draft commercial harbor
- Project depths are 29 feet at the outer harbor entrance and 28 feet in the inner entrance channel. The project depth is 27 feet at the upstream limit of the federal project.
- 774K tons of material shipped and received in 2018
- Ranked 36th in tonnage among Great Lakes harbors in 2018
- Approximately 6,500 feet of maintained federal channel
- Dredged material from this harbor is used for beach nourishment.
- Over 6,200 feet of structures maintained, including breakwaters, piers, and revetments
- Major stakeholders include U.S. Coast Guard, Consumers Energy, Grand Valley State University, Lafarge, Lake Express Ferry Service, Michigan DNR, NOAA, St. Marys Cement, Verplank, West Michigan Dock and Market, a marine contractor, as well as multiple private marinas and charter fishing vessels.

Project Requirements

- The north breakwater was repaired in 2017.
- The south breakwater connector repair began in 2019 and is to be completed in 2020.
- Maintenance dredging of approximately 60,000 to 90,000 cubic yards is required on a 2 to 3 year cycle.
- The harbor was last dredged in 2017 with FY16 funds.
- Maintenance dredging is not currently required.

Consequences of Not Maintaining the Project

- If the harbor were closed to commercial traffic, commodities would have to be transported by rail and truck. This would increase annual emission rates by over 9.5M lbs of harmful particulate matter (PM-10) and increase costs by \$1.8M due to increased railroad related accidents, and \$2.9M due to increased trucking related accidents.
- Light loading; loss of between 2 and 3 feet of channel depth results in increased transportation costs of between \$200,000 and \$350,000 annually

Transportation Importance

- Major receiving port on the Great Lakes
- Commodities include primarily sand, gravel, limestone, cement, and concrete.
- Waterborne transportation facilitated by the harbor supports \$38.7M in business revenue, 167 direct, indirect, and induced jobs, and \$11.1M in labor income to the transportation sector.
- Commodities handled by the harbor support \$761.2M in business revenue, 4,409 direct, indirect, and induced jobs, and \$223.7M in labor income.
- The harbor serves as the port for Grand Rapids and the greater West Michigan Region for commercial and recreational traffic, education, and environmental research.
- The harbor is home to the NOAA Great Lakes Environmental Research Laboratory Lake Michigan Field Station, Grand Valley State University Annis Water Resources Institute, and the Michigan Alternative and Renewable Energy Center.
- Harbor of refuge
- Home to the U.S. Coast Guard Station Muskegon
- Ten private marinas on Muskegon Lake, with more than 1,000 boat slips
- The City of Muskegon maintains one public marina and five public launches including Hartshorn Marina with 143 major boat slips, 30 small slips, and 102 moorings.
- Muskegon State Park, Laketon Township, and the city of North Muskegon each maintain public boat launch facilities.
- Harbor is home to Fisherman’s Landing, which is an 18.6-acre sport-fishing and recreational bass tournament camping facility
- Home port to the Lake Express, a commercial terminal providing high speed cross lake ferry service to and from Milwaukee, WI

**U.S. Army Corps of Engineers Fiscal Year (FY) 2019, 2020, and 2021
Muskegon Harbor, MI - Project Requirements and President’s Budget (\$1,000)**
