of Engineers ®

Sebewaing River, MI

Project Features

- Located on Saginaw Bay in the thumb of Michigan on the west shore of Lake Huron, about 20 miles northeast of the mouth of the Saginaw River
- Authorization: Rivers & Harbors Act of 3 Jun 1896
- Shallow draft recreational project
- Project depth is 8 feet
- Over 15,000 feet of maintained federal channel
- The Sebewaing Confined Disposal Facility (CDF) was turned over to the local community.
- Major stakeholders: U.S. Coast Guard, Village of Sebewaing, Michigan DNR, and Crooked Creek Marina

Project Requirements

- Requires periodic maintenance dredging on a 3-to-5-year cycle of approximately 9,000 to 15,000 cubic yards.
- Portions of this river were last dredged in 2015 with funds provided by the State of Michigan under a contributed funds agreement with USACE. Maintenance dredging is currently required.
- Flood risk management component (levee system) of the project requires repairs. Levee along the north embankment underwent a major reconstruction in 2012. The south embankment still requires repair.
- Engineering, design and construction is currently needed for south levee repair.

Consequences of Not Maintaining the Project

- Loss of local jobs
- Loss of recreational and charter fishing in the area

Transportation Importance

- This project serves as an important harbor of refuge and supports charter fishing and recreational navigation interests.
- The local community has established a significant infrastructure around the harbor facilities that generates income from harbor users and visitors to the area.
