

US Army Corps
of Engineers ®

Tawas Bay Harbor, MI

Harbor Features

- Located on the west shore of Lake Huron, about 45 miles northeast of the mouth of the Saginaw River
- Authorization: Rivers & Harbors Act of 13 Aug 1968
- Shallow draft recreational harbor
- Project depths of 12 feet in the entrance channel, and 10 feet in the inner basin
- More than 1,750 feet of breakwaters
- Major stakeholders include Michigan DNR, U.S. Coast Guard, and various boating and sport fishing interests.

Project Requirements

- Requires infrequent maintenance dredging; the harbor has not required maintenance dredging since it was originally constructed in 1978.

Consequences of Not Maintaining the Project

- Loss of jobs locally
- Loss of recreational opportunities and charter and sport fishing in the area
- Loss of recreational boating access to the Great Lakes
- Loss of safe harbor during storm events
- Potential safety issues for recreational boating community

Transportation Importance

- This project serves as an important harbor of refuge and supports charter fishing and recreational navigation interests.
- The local community has established a significant infrastructure around the harbor facilities that generates income from harbor users and visitors to the area.
